Directors' Report

The Directors of Cromwell Funds Management Limited ("CFM"), the responsible entity of Cromwell Property Trust 12 (the "Trust"), present their report at the end of the year ended 30 June 2021.

The responsible entity and its Directors

Cromwell Funds Management Limited has been the responsible entity of the Trust since its registration. Cromwell Funds Management Limited is part of Cromwell Property Group, a global real estate investment manager with \$11.9 billion of assets under management. The responsible entity undertakes management and administrative duties for the Trust and monitors the Custodian, The Trust Company Limited (owned by Perpetual Limited), which holds the Trust's assets on behalf of the unitholders.

The responsible entity's Directors (collectively referred to as "the Directors") are as follows:

Ms TL Cox	Non-executive Chair	Appointed 14 January 2021, Chair since 14 January 2021
Ms MA McKellar	Non-executive Director	Appointed 27 July 2011
Ms JA Tongs	Non-executive Director	Appointed 18 December 2014
Mr WRL Foster	Non-executive Director	Appointed 29 November 2017
Mr PL Weightman	Executive Director and Chair	Retired 31 December 2020

Principal activity

The Trust aims to deliver a stable, tax effective monthly distribution and capital growth to investors by investing in the commercial investment property 11-13 Robinson Street, Dandenong VIC.

Sale of investment property and payment of Special Distribution

On 19 August 2020 the Trust announced the sale of one of the Trust's two assets, the Rand Distribution Centre, which settled on 14 December 2020. Following settlement, unitholders who were on the Trust's register at 14 December 2020 received a Special Distribution of \$0.6184 per unit.

Trust extension

The Trust's initial term expired on 31 October 2020. In December 2020 unitholders were asked to vote on a rollover proposal for the Trust. A total of 63,988,212 units were eligible to vote. Excluded were 12,011,788 units held by Cromwell Direct Property Fund, a managed investment scheme also managed by Cromwell Funds Management Limited. A total of 53,863,533 votes were cast on the poll, representing 84.18% of eligible votes. Of those, 52,993,533 votes, representing 82.82% of total eligible votes, were in favour of the extending the Trust term. An extraordinary resolution to rollover the Trust for a further five years to 31 October 2025 was therefore approved by unitholders.

There were no other significant changes in the nature of the Trust's principal activity during the financial year.

Review of operations and results

Financial performance

The Trust recorded a statutory profit of \$17,698,000 for the year ended 30 June 2021 (2020: statutory profit of \$11,485,000). The statutory profit was greater than the prior year due to the \$15.2 million net fair value gains derived in relation to the Trust's investment properties. This was offset by an increase in the Performance fee accrued in accordance with the Product disclosure statement due to the ongoing out-performance of the Trust (this fee is included as a component of Management and administration costs).

The statutory profit includes a number of items which are non-cash in nature, occur infrequently and/or relate to realised or unrealised changes in the values of assets and liabilities and in the opinion of the Directors of the responsible entity, these items need to be adjusted for in order to allow unitholders to gain a better understanding of the Trust's underlying operating profit. Operating profit is considered by the Directors to reflect the underlying earnings of the Trust. It is a key metric considered in determining distributions for the Trust.

The Trust recorded an operating profit for the year of \$5,519,000 (2020: \$6,877,000). Operating profit is not calculated in accordance with International Financial Reporting Standards ("IFRS") and has not been audited or reviewed by the Trust's auditor.

Impact of COVID-19 on financial performance

For the year-ended 30 June 2021, rent relief of \$5,882 (2020: \$nil) was granted to a single eligible non-core tenant of C12's remaining investment property (being 11 – 13 Robinson Street, VIC) in the form of a 3-month rent waiver. No other tenant requests for rent relief or deferral as a result of COVID-19 have been received and given the tenant base of the property, no further requests are anticipated.

Directors' Report

A reconciliation of operating profit for the Trust, as assessed by the Directors, to the reported profit for the year is as follows:

	2021 \$'000	2020 \$'000
Operating profit	5,519	6,877
<i>Reconciliation to profit for the year</i>		
Fair value net gains:		
Investment properties	15,152	4,055
Derivative financial instrument	235	534
Non-cash property investment income / (expense):		
Straight-line lease income	496	1,565
Amortisation of loan transaction costs	(116)	(89)
Performance fee	(3,588)	(1,457)
Profit for the year	17,698	11,485

Rental income, excluding straight-line lease income, which is a non-cash item, was \$9,051,000 (2020: \$11,122,000).

	2021 \$'000	2020 \$'000
Base rent and recoverable outgoings	9,051	11,122
Straight-line lease income	496	1,565
Rental income and recoverable outgoings	9,547	12,687

Operating profit per unit for the year was 7.26 cents (2020: 9.05 cents). Distributions paid / payable per unit for the year was 71.09 cents (2020: 9.0 cents), including the special distribution of 61.84 cents.

	2021 cents	2020 cents
Operating profit per unit ⁽¹⁾	7.26	9.05
Profit per unit	23.29	15.11
Distribution per unit ⁽²⁾	71.09	9.00

(1) Based upon operating profit disclosed on page 4.

(2) Includes a Special Distribution of \$0.6184 per unit paid in December 2020.

Financial position

	2021	2020
Total assets (\$'000)	109,882	156,444
Net assets (\$'000)	70,415	106,747
Net debt (\$'000) ⁽¹⁾	35,824	37,726
Gearing (%) ⁽²⁾	33%	25%
Units issued ('000)	76,000	76,000
NTA per unit	\$0.93	\$1.40
NTA per unit (excluding interest rate swaps)	\$0.93	\$1.41

(1) Interest bearing liabilities less cash and cash equivalents.

(2) Net debt divided by total tangible assets less cash and cash equivalents.

NTA per unit is a key measure of the underlying value of the Trust's assets. This was \$0.93 per unit at year end compared to \$1.40 per unit at the end of the last financial year. The decrease reflects the diminished asset base due to the sale of the Rand Distribution Centre and subsequent extraordinary distribution of a significant proportion of the sale proceeds to unitholders.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Trust during the year except as disclosed in the accompanying financial report.

Directors' Report

Subsequent events

No matter or circumstance has arisen since 30 June 2021 that has significantly affected or may significantly affect:

- the Trust's operations in future financial years; or
- the results of those operations in future financial years; or
- the Trust's state of affairs in future financial years.

Likely results and expected results of operations

The activities of the Trust are regulated by the Trust's constitution. Future activities of the Trust will be confined to investment in the current investment property, at 11-13 Robinson Street, Dandenong VIC, to provide a mixture of income and capital growth to investors. The Trust term expires in October 2025.

Environmental regulation

The Directors are not aware of any particular and significant environmental regulation under a law of the Commonwealth, State or Territory relevant to the Trust.

Distributions

Distributions paid to unitholders for the year ended 30 June 2021 were \$54,030,000 (2020: \$6,840,000), which included a Special Distribution of 61.84 cents per unit, equating to an annualised rate of 71.09 cents per unit (2020: 9.00 cents). Distributions payable at balance date were \$593,000 (2020: \$577,000), representing distributions for the month of June, which were paid in July.

Options

No options over unissued units in the Trust have been issued since inception date and none are on issue at the date of this report.

Fees to responsible entity

Total fees paid/payable to the responsible entity or their associates during the year were \$4,830,000 (2020: \$2,829,000).

Units held by the responsible entity

No units in the Trust have been issued to the responsible entity or its Directors during the year and none were held at the end of the financial year.

Indemnifying officers or auditors

No indemnities have been given during or since the end of the financial year, for any person who is or has been an officer or auditor of the Trust. No insurance premiums have been paid for out of the assets of the Trust in regards to insurance provided to the responsible entity or the auditors of the Trust.

Issued units

A total of 76,000,000 (2020: 76,000,000) units were on issue by the Trust at the end of the financial year. There were no redemptions of units in the Trust during the current or prior years.

Value of scheme assets

The major asset of the Trust, the investment property at 11-13 Robinson Street, Dandenong VIC was valued at \$107,000,000 (2020: \$153,000,000) at year-end as disclosed in the accompanying financial report.

The total carrying value of the Trust's assets as at the end of the financial year was \$109,882,000 (2020: \$156,444,000) and net assets attributable to unitholders were \$70,415,000 (2020: \$106,747,000) equating to \$0.93 per unit (2020: \$1.40).

Rounding of amounts

The Trust is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that instrument amounts in the Directors' report and financial report have been rounded off to the nearest thousand dollars, or in certain cases to the nearest dollar.

Directors' Report

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* (Cth) accompanies this report on page 7.

This report is made pursuant to section 306(3) of the *Corporations Act 2001* (Cth).

A handwritten signature in black ink, appearing to read 'TL Cox', is positioned above the printed name.

Notes to the Financial Statements

For the year ended 30 June 2021

1. Basis of preparation

The annual financial report of Cromwell Property Trust 12 (the "Trust") for the year ended 30 June 2021 is a general purpose financial report that has been prepared to comply with the Trust's annual reporting requirements contained in the *Corporations Act 2001* (Cth) and to provide investors in the Trust with information about the financial position of the Trust at the end of the financial year and the Trust's financial performance for the year.

The financial report has been prepared in accordance with Australian Accounting Standards (including Australian Interpretations) adopted by the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001* (Cth). The Trust is a for-profit entity for the purpose of preparing financial statements.

The principal accounting policies adopted in the preparation of the financial report of Cromwell Property Trust 12 are set out below. These policies have been consistently applied to all years presented, unless otherwise stated. The financial report includes financial statements for the Trust as an individual entity.

Trust extension

The Trust's initial term expired on 31 October 2020. In December 2020 unitholders were asked to vote on a rollover proposal for the Trust. A total of 63,988,212 units were eligible to vote. Excluded were 12,011,788 units held by Cromwell Direct Property Fund, a managed investment scheme managed by Cromwell Funds Management Limited. A total of 53,863,533 votes were cast on the poll, representing 84.18% of eligible votes. Of those, 52,993,533 votes, representing 82.82% of total eligible votes, were in favour of the extending the Trust term. An extraordinary resolution to rollover the Trust for a further five years to 31 October 2025 was therefore approved by unitholders.

Special Distribution

On 19 August 2020, the Trust announced the sale of one of the Trust's two assets, the Rand Distribution Centre, which settled on 14 December 2020. Following settlement, unitholders who were on the Trust's register at 14 December 2020 received a Special Distribution of \$0.6184 per unit held.

Compliance with IFRS

The financial report complies with the International Financial Reporting Standards (IFRS) and interpretations adopted by the International Accounting Standards Board.

Historical cost convention

The financial report is prepared on the historical cost basis except for the following:

- investment properties are measured at fair value; and
- derivative financial instruments are measured at fair value.

The methods used to measure fair value are disclosed in notes 5 and 10 respectively.

Functional and presentation currency

The financial report is presented in Australian dollars, which is the Trust's functional currency.

Rounding of amounts

The Trust is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that instrument amounts in the Directors' report and financial report have been rounded off to the nearest thousand dollars, or in certain cases to the nearest dollar, unless otherwise indicated.

Comparatives

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current year.

Continuous disclosure

Continuous disclosure and updates on the Trust's performance and events significant to the Trust are provided on Cromwell's webpage at www.cromwell.com.au/c12.

Segment information

The Trust operates in one operating segment, being direct property investment in Australia. The Trust generates revenues and derives capital appreciation from its investment in investment properties.

Notes to the Financial Statements

For the year ended 30 June 2021

Income tax

Under current income tax legislation the Trust is not liable to pay tax provided its taxable income and taxable realised capital gains are distributed to unitholders. The liability for capital gains tax that may arise if the property was sold is not accounted for in this report.

a) Critical accounting estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical or professional experience and other factors such as expectations about future events. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The areas that involved a higher degree of judgement or complexity and may need material adjustment if estimates and assumptions made in preparation of these financial statements are incorrect are:

Area of estimation	Note
Revenue	3
Fair value of investment property	5
Provisions	8
Fair value of financial instruments	10

b) Impacts of COVID-19 upon financial statement preparation

Key items and related disclosures that have been impacted by COVID-19 were as follows:

- **Rental income and recoverable outgoings** – For the year-ended 30 June 2021, rent relief of \$5,882 was granted to a single eligible non-core tenant of C12's remaining investment property (being 11 – 13 Robinson Street, VIC) in the form of a 3-month rent waiver. No other tenant applications for rent relief or deferral as a result of COVID-19 were received and given the tenant base of the remaining property, none are anticipated. For further information refer to note 3.
- **Investment property** - management reviewed the appropriateness of inputs into investment property valuations. Disclosures with respect to the Trust's investment property are provided in note 5.
- **Receivables** - in response to COVID-19 management has undertaken a review of its relevant tenant receivables. At balance date no receivables were deemed to be impaired.

c) New accounting standards and interpretations adopted by the Trust

New and amended standards adopted by the Trust

There are no standards, interpretations or amendment to existing standards that are effective for the first time for the financial year beginning 1 July 2020 that have a material impact on the amounts recognised in prior periods or will affect the current or future periods.

New standards, amendments and interpretations effective after 1 July 2021 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Trust.

2. Distributions

a) Overview

The Trust's distribution policy is to distribute an amount which is no more than 100% of expected profits available for distribution over the medium term. Profits available for distribution exclude fair value gains or losses.

b) Distributions paid / payable

Distribution rates per unit since inception of the Trust were as follows:

From inception:	7.75 cents
1 July 2015 to 30 June 2016:	8.00 cents
1 July 2016 to 30 June 2017:	8.25 cents
1 July 2017 to 30 June 2018:	8.50 cents
1 July 2018 to 30 June 2019:	8.75 cents
1 July 2019 to 30 June 2020:	9.00 cents
1 July 2020 to 30 June 2021:	9.25 cents

Notes to the Financial Statements

For the year ended 30 June 2021

Excluding the recent extraordinary distribution, normal distributions have increased by 19% since the inception of the Trust in October 2013. The distribution rate for the year was 9.25 cents per annum and is paid monthly. The annual distribution increases since inception of the Trust were made possible by annual rent increases from the Trust's investment properties.

Total distributions paid / payable during the year were as follows:

	2021 \$'000	2020 \$'000
Distributions paid / payable	54,030	6,840

3. Revenue

a) Overview

The Trust recognises revenue from the transfer of goods and services over time and at a point in time in respect of relevant non-lease elements of rental income and recoverable outgoings. The Trust also recognises lease revenue from tenant customers and revenue items from other sources, including interest and fair value gains from derivative financial instruments.

The table below presents information about revenue items recognised from contracts with customers and other sources:

	2021 \$'000	2020 \$'000
Rental income – lease components	8,491	11,372
Recoverable outgoings - non-lease components	1,056	1,315
Rental income and recoverable outgoings	9,547	12,687
<i>Other revenue items recognised:</i>		
Fair value gains from investment properties	15,152	4,055
Fair value gains from derivative financial instrument	235	534
Interest	6	29
Total other revenue	15,393	4,618
Total revenue	24,940	17,305

b) Disaggregation of revenue from contracts

The table below presents information about the disaggregation of revenue items from the Trust's contracts with relevant customers:

	2021 \$'000	2020 \$'000
<i>Rental income and recoverable outgoings – non-lease components:</i>		
Recoverable outgoings ⁽¹⁾	1,038	1,291
Cost recoveries ⁽²⁾	18	24
Total rental income and recoverable outgoings – non-lease components	1,056	1,315

(1) Revenue items recognised over time.

(2) Revenue item recognised at point in time.

c) Accounting policy

Rental revenue and recoverable outgoings

Rental revenue and recoverable outgoings comprise rental income from tenants under operating leases of investment properties and amounts charged to tenants for property outgoings such as rates, levies, utilities, cleaning etc.

Rental income is recognised on a straight-line basis over the lease term. Lease incentives granted are considered an integral part of the total rental revenue and are recognised as a reduction in rental income over the term of the lease, on a straight-line basis. Amounts charged for outgoings to tenants are expense recoveries and recognised upon incurring the expense.

Interest revenue

Interest revenue is recognised as it accrues using the effective interest method. Interest revenue is predominately earned from financial assets including cash and trade and other receivables.

Contract liabilities (unearned income)

The Trust sometimes receives payments from customers in relation to future periods whereby the underlying receipt is not actually due and payable to the Trust. This results in a contract liability being recognised upon receipt of the cash which is recognised in the Trust's balance sheet as unearned income.

Notes to the Financial Statements

For the year ended 30 June 2021

d) Critical accounting estimates and judgements

Impact of COVID-19

The Trust's collections were unimpacted by the government relief measures imposed to combat COVID-19 due to the tenant population being heavily skewed towards a single large government tenant and other tenants in markets not heavily impacted by the pandemic.

4. Receivables

a) Overview

Receivables of the Trust generally consist of rental receivables and interest receivable on the Trust's cash deposits.

	2021 \$'000	2020 \$'000
Rent receivables	24	148
Interest receivables	-	2
Total receivables	24	150

At year-end receivables of \$22,000 (2020: \$132,000) were past due date but not impaired. No receivables have been determined to be impaired (2020: none).

b) Accounting policy

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment. Receivables relating to operating leases of investment properties are due on the first day of each month, payable in advance. Other receivables are usually due for settlement no more than 90 days from the date of recognition.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off.

5. Investment property

a) Overview

Following the sale of the Rand Distribution Centre, SA in December 2020, the Trust holds one investment property, 11 – 13 Robinson Street, VIC. The property is 91% leased to the Australian Taxation Office to September 2030.

b) Details of the Trust's investment properties

	Independent valuation		Carrying amount		Fair value adjustment	
	Date	Amount \$'000	As at		For the year ended	
			2021 \$'000	2020 \$'000	2021 \$'000	2020 \$'000
11 – 13 Robinson Street, VIC	31 Oct 2020	107,000	107,000	100,000	6,453	4,073
Rand Distribution Centre, SA	30 Sep 2019	53,000	-	53,000	8,699	(18)
Total investment properties		160,000	107,000	153,000	15,152	4,055

c) Movements in investment property

A reconciliation of the carrying amounts of investment property at the beginning and the end of the financial year is set out below:

	2021 \$'000	2020 \$'000
Balance at 1 July	153,000	147,200
<i>Additions at cost:</i>		
Lifecycle	159	180
Disposal costs	1,249	-
Disposal	(63,056)	-
Straight-line lease income	496	1,565
Net gain from fair value adjustments	15,152	4,055
Total investment property	107,000	153,000

Notes to the Financial Statements

For the year ended 30 June 2021

d) Amounts recognised in profit and loss for investment properties

	2021 \$'000	2020 \$'000
Rental income and recoverable outgoings	9,547	12,687
Property expenses and outgoings	(1,346)	(1,621)
	8,201	11,066

e) Non-cancellable operating lease receivable from investment property tenants

The investment properties are generally leased to tenants on long term operating leases with rentals payable monthly. Minimum lease payments under the non-cancellable operating leases of the Trust's investment properties not recognised in the financial statements are receivable as follows:

	2021 \$'000	2020 \$'000
Within one year	6,336	9,802
Later than one year but not later than five years	27,326	42,413
Later than five years	32,671	92,085
	66,333	144,300

f) Accounting policy

Investment property

Investment property is initially measured at cost including transaction costs and is subsequently measured at fair value, with any change therein recognised in profit or loss.

Fair value is based upon active market prices, given the assets highest and best use, adjusted if necessary, for any difference in the nature, location or condition of the relevant asset. If this information is not available, the Trust uses alternative valuation methods such as discounted cash flow projections or the capitalised earnings approach. The highest and best use of an investment property refers to the use of the investment property by market participants that would maximise the value of that investment property.

The carrying value of the investment property includes components relating to lease incentives and other items relating to the maintenance of, or increases in, lease rentals in future periods.

Lease incentives

Lessees may be offered incentives as an inducement to enter into non-cancellable operating leases. These incentives may take various forms including up front cash payments, rent free periods, or a contribution to certain lessee costs such as fit out costs or relocation costs. They are recognised as an asset in the balance sheet as a component of the carrying amount of investment property and amortised over the lease period as a reduction of rental income.

Initial direct leasing costs

Initial direct leasing costs incurred by the Trust in negotiating and arranging operating leases are recognised as an asset in the balance sheet as a component of the carrying amount of investment property and are amortised as an expense on a straight line basis over the lease term.

g) Critical accounting estimates (fair value measurement)

The Trust's investment property, with a carrying amount of \$107 million (2020: \$153 million) represent a significant balance on the Trust's balance sheet. Investment property is measured at fair value using valuation methods that utilise inputs based upon estimates. Note 5(i) provides further details in relation to the valuation of investment property.

Impact of COVID-19

For the year ended 30 June 2021 the Trust's approach to property valuations was substantially consistent with prior years, being in accordance with the established Valuations policy, but with an added emphasis in relation to the impact of COVID-19 upon inputs relevant to the valuation model for each property.

It should be noted that external valuers have specified in their reports that their valuations during the 30 June 2021 year were performed in an unusual market context, notably the absence of transactions initiated after the outbreak of the pandemic and difficulties associated with estimating the outlook for changes in the investment property market given the nature of the recent health crisis, and they were working within the context of valuation uncertainty.

Notes to the Financial Statements

For the year ended 30 June 2021

h) Investment property sold - Rand Distribution Centre, SA

Details of the investment property sold during the year are as follows:

	Gross sale price \$'000	Carrying amount at 30 June 2020 \$'000	Last independent valuation \$'000	Loss on sale recognised \$'000
Rand Distribution Centre, SA	63,050	53,000	53,000	6

i) Fair value measurement

As noted above in the Trust's accounting policy, the investment property is measured at fair value. The fair value of the Trust's investment property is determined using property valuation models that rely on the use of inputs that are not based on readily observable market data. Such valuation methods for determining fair value are called level 3 fair value measurements. These valuation methods and inputs are described in more detail below.

Valuation methodologies

Income capitalisation method	This method involves assessing the total net market income receivable from the property and capitalising this perpetually, using an appropriate, market derived capitalisation rate, to derive a capital value, with allowances for capital expenditure reversions such as lease incentives and required capital works payable in the near future and overs / unders when comparing market rent with passing rent.
DCF method	Under the DCF method, a property's fair value is estimated using assumptions regarding the benefits and liabilities of ownership over the asset's life including an exit terminal value. The DCF method involves the projection of expected cash flows from a real property asset over a period of time (generally five to ten years) discounted to present value using an appropriate discount rate. An exit terminal value is added to the present value of the property cash flows using an appropriate terminal yield, to derive the value of the property.

Both methods require the determination of net market rent for a particular property, being the income capitalised or used to determine the present value of cash flows from the properties.

Unobservable inputs

Net market rent	A net market rent is the estimated amount for which a property or space within a property could be leased between a willing lessor and a willing lessee on appropriate lease terms in an arm's length transaction, after proper marketing and wherein the parties have each acted knowledgeably, prudently and without compulsion.
Capitalisation rate	The rate at which net market income is capitalised to determine the value of the property. The rate is determined with regards to market evidence (and the prior external valuation for internal valuations).
Discount rate	The rate of return used to convert a monetary sum, payable or receivable in the future, into present value. It reflects the opportunity cost of capital, that is, the rate of return the capital can earn if put to other uses having similar risk. The rate is determined with regards to market evidence (and the prior external valuation for internal valuations).
Terminal yield	The capitalisation rate used to estimate the residual value of the cash flows associated with the investment property at the end of the expected holding period.

The sensitivity to changes in the significant unobservable inputs associated with the valuation of the Trust's investment properties are as follows:

	Input values		Sensitivity	
	2021	2020	Impact on fair value if input increases	Impact on fair value if input decreases
Annual net property income (\$'000)	6,314	3,467 - 6,179	Increase	Decrease
Capitalisation rate (%)	5.50	5.25 - 6.50	Decrease	Increase
Discount rate (%)	6.13	6.50 - 7.50	Decrease	Increase
Terminal yield (%)	6.00	5.75 - 6.58	Decrease	Increase
WALE (years)	8.60	9.60 - 15.93	Increase	Decrease
Occupancy	96%	100%	Increase	Decrease

Notes to the Financial Statements

For the year ended 30 June 2021

6. Interest-bearing liabilities

a) Overview

The Trust has borrowed funds from a financial institution to partly fund the acquisition of the Trust's investment property at 11 – 13 Robinson St, Victoria. This note provides further details about the Trust's debt facility and relating finance costs incurred during the year.

	2021 \$'000	2020 \$'000
Current		
Bank loan – investment property	-	41,000
Less: Unamortised transaction costs	-	(23)
Interest-bearing liabilities - current	-	40,977
Non-current		
Bank loan – investment property	38,000	-
Less: Unamortised transaction costs	(232)	-
Interest-bearing liabilities – non-current	37,768	-
Total interest-bearing liabilities	37,768	40,977

b) Details of interest bearing liabilities

Bank loan – investment property

This bank loan facility is secured by a first registered mortgage over the Trust's investment property at 11 – 13 Robinson Street, VIC. The loan bears interest at a variable rate plus a margin. During the year, the Trust cancelled its existing debt facility and entered into a new facility agreement with a new lender for a term of 5 years to February 2026. The Trust has no unused finance facilities.

c) Finance costs

	2021 \$'000	2020 \$'000
Interest	1,095	1,586
Amortisation of loan transaction costs	116	89
Ongoing fees	5	-
Total finance costs	1,216	1,675

d) Accounting policy

Interest bearing liabilities are initially recognised at fair value, net of transaction costs. Interest bearing liabilities are subsequently measured at amortised cost using the effective interest rate method. Under this method fees, costs, discounts and premiums directly related to the financial liability are spread over its expected life.

Finance costs incurred on funds borrowed for the construction of a property are capitalised, forming part of the construction cost of the asset. Capitalisation ceases upon practical completion of the property. Other finance costs are expensed.

7. Derivative financial instruments

a) Overview

For the period up to 30 September 2020, the Trust managed its cash flow interest rate risk by using a floating-to-fixed interest rate swap contract. In this contract the Trust agreed with the counterparty to exchange, at specified intervals (usually 30 days), the difference between the contract rate and the floating-rate interest amounts calculated by reference to the agreed notional principal amount.

On 1 October 2020 the swap contract matured and was not renewed. During the period under the contract, the Trust effectively paid interest on a notional swap amount of \$41,000,000 at a fixed rate of 2.66% (30 June 2020: at fixed rate of 2.66%) with the counterparty paying at the variable 30-day bank bill swap bid rate until maturity.

On 12 April 2021, the Trust entered into an interest rate cap contract for a notional amount of \$38,000,000 effective 26 May 2021. The cap rate is 0.689% per annum and matures in February 2026. In this contract, if or when the floating rate (being the 3 month BBSY) exceeds the fixed rate cap, the Trust will receive the net proceeds on a quarterly basis. If the floating rate is below the fixed rate cap, the Trust pays the floating rate.

Notes to the Financial Statements

For the year ended 30 June 2021

	2021 \$'000	2020 \$'000
Non-current asset		
Interest rate cap contract	891	-
Current liability		
Interest rate swap contract	-	344

b) Accounting policy

The Trust is exposed to changes in interest rates and uses interest rate derivatives to hedge these risks. Such derivative financial instruments are initially recognised at cost on the date on which a derivative contract is entered into and are subsequently remeasured to fair value at balance date. Derivatives are carried as assets when their fair value is positive and as liabilities when their fair value is negative.

The Trust entered into an interest rate swap agreement to convert certain future variable interest rate borrowings to fixed interest rates. When this expired, the Trust entered into an interest rate cap agreement in which the Trust receives payments at the end of each quarter where the interest rate exceeds the agreed strike price. The derivatives were entered into with the objective of hedging the risk of adverse interest rate fluctuations. While the Trust has determined that these arrangements are economically effective, they have not satisfied the documentation, designation and effectiveness tests required by accounting standards. As a result, they do not qualify for hedge accounting and gains or losses arising from changes in fair value are recognised immediately in profit or loss. For details of the Trust's fair value measurement of financial instrument refer to note 10(e).

8. Provisions

a) Overview

The Trust's constitution entitles the responsible entity to a performance fee payable as soon as possible after the extension or rollover of the Trust or sale of the investment property in addition to its ongoing management fee. The performance fee payable is calculated as 20% of the excess cash flow above an internal rate of return of 10% from the property from the date of acquisition.

Following the rollover of the Trust during the reporting period, the responsible entity became entitled to a performance fee by extraordinary resolution of the unitholders on 17 December 2020, which was paid during the period. The Trust now has a long period until expiry, hence no provision for the performance fee has been recognised at 30 June 2021.

	2021 \$'000	2020 \$'000
Current		
Provision for performance fee	-	6,107

b) Movement in provision

	2021 \$'000	2020 \$'000
Balance at the beginning of the year	6,107	4,650
Adjustment of provision through profit or loss	3,588	1,457
Performance fee paid	(9,695)	-
Balance at 30 June	-	6,107

c) Accounting policy

A provision for performance fees payable to the responsible entity is recognised by the Trust if the performance of the Trust exceeds the performance hurdle for the fee to become payable as per the Trust's constitution. The performance fee is calculated based on a discounted cash flow projection over the life of the Trust taking into account any fair value gains or losses of investment property to balance date. The recognised performance fee is remeasured at each reporting date with adjustments made through profit or loss.

Key area of estimation and judgement

The Trust exercises judgement in measuring and recognising the provision in respect of the performance fee due to the responsible entity. In the first instance, the quantum of the provision is dependent upon the uncertain outcome of the unitholders vote in respect of the extension of the Trust and a small change to the Constitution in relation to the same, as this will slightly alter the basis of the calculation. Secondly, judgement is necessary in assessing the quantum of the fee itself, which is uncertain as it is dependent upon the independent valuation of the investment property, the timing of its disposal and related estimated selling costs.

Notes to the Financial Statements

For the year ended 30 June 2021

9. Contributed equity

a) Overview

The Trust is closed and will not issue any more units. Following approval by unitholders of the rollover of the Trust, the Trust term has been extended for a further five years to 31 October 2025. During the extended term unitholders have no right of withdrawal.

	2021		2020	
	# '000	\$'000	# '000	\$'000
Issued units	76,000	74,682	76,000	74,682

b) Accounting policy

A financial instrument that includes a contractual obligation for the Trust to deliver to each instrument holder their pro rata share of the Trust's net assets on liquidation is classified as an equity instrument (contributed equity) when it has all the following features:

- (1) The instrument entitles each instrument holder to a pro rata share of the Trust's net assets in the event of the Trust's liquidation. The Trust's net assets are those assets that remain after deducting all other claims on the entity's assets. A pro rata share is determined by dividing the net assets of the Trust at the end of its term into units of equal amount and multiplying that amount by the number of units held by the instrument holder.
- (2) The instrument is subordinate to all other classes of financial instruments of the Trust. For this to be the case, the instrument must give the instrument holder no priority over other claims to the assets of the Trust on liquidation and must not need to be converted into another instrument to be in a class of instruments that is subordinate to all other classes of instruments.
- (3) All instruments in the class of instruments must have an identical contractual obligation for the entity to deliver a pro rata share of its net assets on liquidation.

In addition to the above features, the Trust must have no other financial instrument or contract that has total cash flows based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the Trust and the effect of substantially restricting or fixing the residual return to instrument holders.

10. Financial risk management

a) Overview

The Trust's activities expose it to a variety of financial risks which include credit risk, liquidity risk and market risk. The responsible entity's overall risk management program focuses on managing these risks and seeks to minimise potential adverse effects on the financial performance of the Trust. The Trust uses derivative financial instruments such as interest rate derivatives to hedge certain risk exposures. The Trust seeks to deal only with creditworthy counterparties. Liquidity risk is monitored through the use of future rolling cash flow forecasts.

The Responsible entity's treasury activities are centralised and governed by policies approved by the Directors who monitor the operating compliance and performance as required. The responsible entity has policies for overall risk management as well as policies covering specific areas such as identifying risk exposure, analysing and deciding upon strategies, performance measurement, the segregation of duties and other controls around the treasury and cash management functions.

Notes to the Financial Statements

For the year ended 30 June 2021

The Trust holds the following financial instruments that are subject to the responsible entity's risk management practices:

	Type of financial instrument	2021 \$'000	2020 \$'000
Financial assets:			
Cash and cash equivalents	(1)	1,944	3,251
Receivables	(1)	24	150
Derivative financial instrument		891	-
Total financial assets		2,859	3,401
Financial liabilities			
Trade and other payables	(1)	397	559
Distribution payable	(1)	593	577
Interest bearing liabilities	(1)	37,768	40,977
Derivative financial instruments	(2)	-	344
Provisions	(1)	-	6,107
Total financial liabilities		38,758	48,564

Type of financial instrument per AASB 9 *Financial Instruments*:

(1) At amortised cost; and

(2) At fair value through profit or loss.

The Trust is exposed to the following key financial risks:

Risk	Definition of risk	Trust's exposure	Responsible entity's management of risk
Credit risk (Section 10(b))	The risk a counterparty will default on its contractual obligations under a financial instrument and result in a financial loss to the Trust.	<ul style="list-style-type: none"> Cash and cash equivalents; Receivables; Derivative financial instruments. 	The responsible entity manages this risk by: <ul style="list-style-type: none"> establishing credit limits for customers and managing exposure to individual entities; monitoring the credit quality of all financial assets in order to identify any potential adverse changes in credit quality; derivative counterparties and cash transactions, when utilised, are transacted with high credit quality financial institutions; and regularly monitoring loans and receivables on an ongoing basis.
Liquidity risk (Section 10(c))	The risk the Trust will default on its contractual obligations under a financial instrument.	<ul style="list-style-type: none"> Payables; Borrowings; Derivative financial instruments. 	The responsible entity manages this by: <ul style="list-style-type: none"> maintaining sufficient cash reserves and undrawn finance facilities to meet ongoing liquidity requirements preparation of rolling forecasts of short-term and long-term liquidity requirements monitoring maturity profile of borrowings and putting in place strategies to ensure all maturing borrowings are refinanced significantly ahead of maturity.
Market risk – interest rate risk (Section 10(d))	The risk that the fair value or cash flows of financial instruments will fluctuate due to changes in market interest rates.	<ul style="list-style-type: none"> Borrowings at variable or fixed rates; Derivative financial instruments. 	The responsible entity manages this risk through interest rate hedging arrangements (swap or cap contracts) on not less than 50% of the Trust's borrowings.

b) Credit risk

The maximum exposure to credit risk at balance date is the carrying amount of financial assets recognised in the Balance sheet of the Trust. The Trust holds no significant collateral as security. Cash is held with an Australian financial institution, and the interest rate derivative counterparty is an Australian financial institution.

Notes to the Financial Statements

For the year ended 30 June 2021

The Trust has one major asset, 11 – 13 Robinson St, Victoria, of which 91% of the net lettable area is leased to one tenant, the Australian Taxation Office to September 2030. Other than this, the Trust does not have any significant credit risk exposure to any single counterparty or counterparties having similar characteristics.

c) Liquidity risk

The contractual maturity of the Trust's financial liabilities at balance date are shown in the table below. It shows undiscounted contractual cash flows required to discharge the Trust's financial liabilities, including interest at current market rates.

	1 year or less \$000	2 – 5 years \$000	Total \$000
2021			
Trade and other payables	397	-	397
Distribution payable	593	-	593
Interest bearing liabilities	665	40,494	41,159
Total financial liabilities	1,655	40,494	42,149
2020			
Trade and other payables	559	-	559
Distribution payable	577	-	577
Interest bearing liabilities	41,139	-	41,139
Derivative financial instrument	344	-	344
Provisions	6,107	-	6,107
Total financial liabilities	48,726	-	48,726

d) Market risk

Interest rate risk

The Trust's interest-rate risk primarily arises from borrowings. Borrowings issued at variable rates expose the Trust to cash flow interest rate risk. Borrowings issued at fixed rates will expose the Trust to fair value interest rate risk. The Trust's policy is to effectively maintain hedging arrangements of its borrowings where it is considered appropriate and cost effective to do so. For details of the Trust's interest rate swap and cap contracts in place refer to note 7.

The table below shows the impact on profit and equity if interest rates changed by 100 basis points based on borrowings and interest rate derivatives held at year-end with all other variables held constant. The impact on profit and equity includes impact on finance costs (cash flow risk) and the fair value of derivative financial instruments (fair value risk).

Interest rate increase / decrease of:	+1%		-1%	
	Profit \$'000	Equity \$'000	Profit \$'000	Equity \$'000
2021	24	24	(24)	(24)
2020	41	41	(41)	(41)

e) Fair value measurement of financial instruments

The Trust uses a number of methods to determine the fair value of its financial assets and financial liabilities. The methods comprise the following:

Level 1:	quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2:	inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).
Level 3:	inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Trust measures and recognises the following financial instruments at fair value on a recurring basis:

- Interest rate swap and cap contracts – derivative financial instruments, measured at fair value under the Level 2 method.

The Trust does not hold any other financial instruments at fair value in the current or prior period and there were no transfers between levels of the fair value hierarchy during the period.

Valuation techniques used to derive Level 1 fair values

At balance date, the Trust held no Level 1 assets. The fair value of financial assets traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

Notes to the Financial Statements

For the year ended 30 June 2021

Valuation techniques used to derive Level 2 fair values

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. These valuation techniques maximise the use of observable market data, assessed for the impact of COVID-19 where it is applicable and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Fair value of interest rate swaps and caps

Level 2 financial assets and financial liabilities held by the Trust include "Vanilla" fixed to floating interest rate swap and interest rate cap derivatives (over-the-counter derivatives). The fair value of these derivatives has been determined using pricing models based on discounted cash flow analysis which incorporates assumptions supported by observable market data at balance date including market expectations of future interest rates and discount rates adjusted for any specific features of the derivatives and counterparty or own credit risk.

f) Fair value of other financial instruments not measured at fair value

The carrying amounts of receivables, other current assets, trade and other payables and distributions payable are assumed to approximate their fair values due to their short-term nature. The fair value of interest bearing liabilities is estimated by discounting the future contractual cash flows at the current market interest rates that are available to the Trust for similar financial instruments. The fair value of these interest bearing liabilities is not materially different from the carrying value.

g) Accounting policy

The accounting policies with respect to the initial recognition, measurement, classification and subsequent measurement of the Trust's financial assets and financial liabilities are detailed below:

Initial recognition and measurement

Financial assets and financial liabilities are recognised in the Trust's Balance sheet when it becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. On initial recognition, financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are recognised net of transaction costs directly attributable to the acquisition of these financial assets or financial liabilities. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the consolidated statement of comprehensive income.

Financial assets

Classification and subsequent recognition and measurement

Subsequent to initial recognition the Trust classifies its financial assets in the following measurement categories:

- Those to be measured at fair value (either through other comprehensive income, or through profit or loss); and
- Those to be measured at amortised cost.

The classification depends upon the whether the objective of the Trust's relevant business model is to hold financial assets in order to collect contractual cash flows (business model test) and whether the contractual terms of the cash flows give rise on specified dates to cash flows that are solely payments of principal and interest (cash flow test).

Financial assets recognised at amortised cost

Trade and other receivables are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest and are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the Statement of profit or loss.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off.

Financial assets recognised at fair value through profit or loss

Assets that do not meet the criteria for amortised cost or recognition at fair value through other comprehensive income are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in the Statement of profit or loss and presented net within other gains / (losses) in the period in which it arises.

Impairment

The Trust recognises a loss allowance for expected credit losses on trade receivables that are measured at amortised cost and contract assets. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

Notes to the Financial Statements

For the year ended 30 June 2021

For trade receivables, the Trust applies the simplified approach permitted by AASB 9, which requires expected lifetime credit losses to be recognised from initial recognition of the receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on The Trust's historical credit loss experience adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

The Trust impairs a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not contingent consideration of an acquirer in a business combination, held-for-trading, or designated as at fair value through profit or loss, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Trust derecognises financial liabilities when, and only when, its obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of profit or loss.

When the Trust exchanges one debt instrument for another with substantially different terms with an existing lender, such exchange is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, the Trust accounts for the substantial modification of terms of an existing liability or part of it as an extinguishment of the original financial liability and the recognition of a new financial liability.

11. Cash flow information

a) Overview

This note provides further information on the cash flow statement of the Trust. It reconciles profit for the year to cash flows from operating activities and information about non-cash transactions.

b) Reconciliation of profit for the year to net cash provided by operating activities

	2021 \$'000	2020 \$'000
Net profit	17,698	11,485
Fair value net (gain) / net loss:		
Investment properties	(15,152)	(4,055)
Interest rate derivative	(235)	(534)

Notes to the Financial Statements

For the year ended 30 June 2021

c) Accounting policy

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

12. Related parties

a) Overview

Related parties are persons or entities that are related to the Trust as defined by AASB 124 *Related Party Disclosures*. These include Directors and other key management personnel of the responsible entity and their close family members and any entities they control. They also include any associated entities of the responsible entities, such as entities that are also controlled by the parent entity of the responsible entity Cromwell Corporation Limited.

This note provides information about transactions with related parties during the year. All of the Trust's transactions with related parties are on normal commercial terms and conditions and at market rates.

b) Key management personnel disclosures

The following persons were Directors and other key management personnel of the responsible entity during the entire year, unless otherwise stated:

Cromwell Funds Management Limited

Non-executive directors

TL Cox	Director – appointed 14 January 2021, Chair since 14 January 2021
MA McKellar	Director
JA Tongs	Director
WRL Foster	Director

Executive directors and other key management personnel

PL Weightman	Managing Director and Chief Executive Officer – retired 31 December 2020
M Wilde	Chief Financial Officer to 31 December 2020. Acting Chief Executive Officer from 1 January 2021.
B Hinton	Acting Chief Financial Officer from 1 January 2021.

There were no key management personnel employed by the Trust at any time during the year.

c) Remuneration

Key management personnel are paid by Cromwell Operations Pty Ltd. Cromwell Operations Pty Ltd is a wholly owned subsidiary of Cromwell Corporation Limited, which is the parent entity of the responsible entity. Payments made from the Trust to either Cromwell Operations Pty Ltd or Cromwell Funds Management Limited do not include any amounts directly attributable to the compensation of key management personnel.

d) Unitholdings / loans

The Directors and other KMP of the responsible entity, including their personally related parties, had no loans payable to/receivable from the Trust nor held any units in the Trust during the financial year or at year-end.

e) Transactions with the responsible entity and its associates

	2021 \$	2020 \$
<i>Amounts paid / payable</i>		
Fund administration fees	834,843	923,962
Fund performance fees	3,588,000	1,457,000
Accounting service fees	64,800	62,400
Property and facility management fees	341,848	385,608
Aggregate amount payable to the responsible entity and its associate at year-end	65,323	133,337

Performance fee

In addition to the ongoing funds management fee, the responsible entity is entitled to a performance fee payable as soon as possible after the sale of the properties, or on an extension of the Trust term. The performance fee payable is calculated as 20% of the excess cash flow above an internal rate of return of 10% from the properties from the date of acquisition of the properties to the earlier of the sale of the properties or

Notes to the Financial Statements

For the year ended 30 June 2021

a Trust term extension. As at 30 June 2021 the performance fee payable was calculated to be \$nil (2020: \$6,107,000) due to the long period to expiry of the Trust.

13. Remuneration of auditor

During the year the following fees were paid or payable for services provided by the auditor of the Trust:

	2021 \$	2020 \$
Audit services		
<i>Pitcher Partners Brisbane</i>		
• Audit and review of financial report	20,500	18,500
• Audit of compliance plan	6,750	6,300
Non-audit services		
• Forecast review	23,000	-
Total remuneration for audit and other assurance services	50,250	24,800

There were no fees paid for other services.

14. Unrecognised items

a) Overview

Items that have not been recognised on the Trust's Balance sheet include contractual commitments for future expenditure and contingent liabilities which are not sufficiently certain to qualify for recognition as a liability on the Balance sheet. This note provides details of any such items.

b) Contingent liabilities

The Directors are not aware of any material contingent liabilities and the Directors are not aware of any material changes in contingent liabilities of the Trust.

c) Commitments

At year end the Trust does not have any material expenditure commitments.

15. Subsequent events

No matter or circumstance has arisen since 30 June 2021 that has significantly affected or may significantly affect:

- the Trust's operations in future financial years; or
- the results of those operations in future financial years; or
- the Trust's state of affairs in future financial years.

Directors' Declaration

In the opinion of the Directors of Cromwell Funds Management Limited as responsible entity for Cromwell Property Trust 12:

- (a) the attached financial statements and notes are in accordance with the *Corporations Act 2001* (Cth), including:
 - (i) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
 - (ii) giving a true and fair view of the Trust' financial position as at 30 June 2021 and of its performance, for the financial year ended on that date; and
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1 Basis of preparation; and
- (c) there are reasonable grounds to believe that the Trust will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors of Cromwell Funds Management Limited.

Ms TL Cox

Independent Auditor's Report To the Members of Cromwell Property Trust 12

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Cromwell Property Trust 12 ("the Trust"), which comprises the balance sheet as at 30 June 2021, the statement of profit or loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' of the responsible entity's declaration.

In our opinion, the accompanying financial report of the Trust, is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Trust's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Trust in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* "the Code" that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the responsible entity of Trust, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The directors of Cromwell Funds Management Limited as responsible entity for the Trust (the "directors") are responsible for the other information. The other information comprises the information included in the Trust's directors' report for the year ended 30 June 2021, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Trust are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

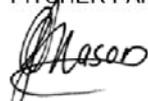

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.
