22 October 2018

Cromwell Funds Management Limited (CFM) is the Responsible Entity of the Cromwell Australian Property Fund (the Fund).

Annual Fees and Costs

In section 5.2 of the Fund's product disclosure statement dated 29 September 2017 (PDS), CFM provides an example of the annual fees and costs associated with an investment in the Fund and a breakdown of management costs.

CFM wishes to update this disclosure based on amounts for the financial year ended 30 June 2018:

5.2 Example of Annual Fees and Costs

The table below gives an example of how the fees and costs for the product can affect your investment over a one year period. You should use this table to compare this product with other managed investment products.

EXAMPLE

CROMWELL AUSTRALIAN PROPERTY FUND¹		BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR²
Contribution Fee	0%	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management Costs	1.32% per annum ³	And, for every \$50,000 you have in the Fund you will be charged \$660 each year.
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put an additional \$5,000 in during that year then for that year, you would be charged fees of: \$660 - \$726. What it costs you will depend on the fees you negotiate with your financial adviser.

1. This example does not include any additional fees that your financial adviser or IDPS operator may charge you.
2. The minimum initial investment amount for the Fund is \$10,000. The minimum additional investment amount is \$1,000.
3. This is the Fund's indirect cost ratio (ICR) and represents the ratio of the management costs of the Fund to the total average net assets of the Fund for the previous financial year. The ICR includes management costs incurred in any Property Trusts. The ICR will change over time as the management costs of the Fund and any Property Trusts into which it invests change.

BREAKDOWN OF MANAGEMENT COSTS	AMOUNT

Annual administration cost	0.20% ⁴
Performance fees	0.00% ⁵
Indirect costs	1.12% ⁶
Total management costs	1.32%

4. Annual administration costs of 0.20% of the Fund's net asset value for the 12 months to 30 June 2018.
5. Of the Fund's net asset value. This amount will depend on the Fund's performance.
6. Indirect costs of investing in DPF and PSF, represented as a percentage of the Fund's net asset value. This amount will depend on the Fund's portfolio composition.

Section 5.2 of the PDS should be read accordingly.

Transactional and Operational Costs

As disclosed in section 5.3.2 of the PDS, transactional and operational costs are disclosed based on amounts paid in the previous financial year and in any year will differ depending on the investment activity of the Fund.

CFM wishes to disclose that the total transactional and operational costs of the Fund for the financial year ended 30 June 2018 were 1.12% of the net assets of the Fund (e.g., \$560 for every \$50,000 of net assets).

If the buy/sell spread applied is not sufficient to cover the Fund's total transactional and operational costs, the balance of the costs will be paid out of the Fund's assets. If the buy/sell spread applied exceeds the Fund's transactional and operational costs, the balance of the buy/sell spread will be retained by the Fund. The transactional and operational costs not covered by the buy/sell for the financial year ending 30 June 2018 were 1.08% of the net asset value of the Fund (e.g., \$540 for every \$50,000 of net assets).

Section 5.3.2 of the PDS should be read accordingly.
