

# ASIC Benchmarks and Disclosure Principles: Cromwell Direct Property Fund 18 November 2020

---

## Information Provided Pursuant to ASIC Regulatory Guide 46 (RG46)

---

### Important Notice and Disclaimer

As responsible entity of the Cromwell Direct Property Fund ARSN 165 011 905 ("Fund"), Cromwell Funds Management Limited ABN 63 114 782 777, AFSL 333214 ("CFM") is the issuer of this ASIC Benchmarks and Disclosure Principles guide ("Guide") which should be read in conjunction with the Product Disclosure Statement for the Fund dated 18 November 2020 ("PDS").

Updates on the Fund are available at [www.cromwell.com.au/dpf](http://www.cromwell.com.au/dpf).

The information in this Guide is general information only and does not take into account your objectives, financial situation or needs. Therefore, before deciding whether to acquire or continue to hold an investment you should consider the PDS and updates to it carefully and assess, with or without your financial or taxation advisor, whether the Fund fits your objectives, financial situation or needs.

---

## Scope of this Guide

The Australian Securities & Investments Commission (ASIC) issued RG 46 in September 2008 and updated it in March 2012. RG 46 sets out particular disclosure principles and benchmarks designed to provide improved disclosure to retail investors to help them compare risks and returns across investments in the unlisted property sector.

Set out below are tables which list each disclosure principle and benchmark and where the relevant information is included in this Guide and, if applicable, the PDS, which is available on our website at [www.cromwell.com.au/dpf](http://www.cromwell.com.au/dpf).

	<b>Disclosure Principles</b>	<b>Guide reference</b>	<b>PDS Reference</b>

	<b>Benchmarks</b>	<b>Guide reference</b>	<b>PDS Reference</b>
1	Gearing Policy – The Fund meets the benchmark. The Fund maintains and complies with a written policy that governs the level of gearing for the Fund	Section 3.1	Section 1.7
2	Interest Cover Policy – The Fund meets the benchmark. The Fund maintains and complies with a written policy that governs the level of interest cover for the Fund.	Section 3.1	Section 1.7
3	Interest Capitalisation – The Fund meets the benchmark. The interest expense of the Fund is not capitalised.	Section 3.4	Section 1.7
4	Valuation Policy – The Fund meets the benchmark. The Fund maintains and complies with a written valuation policy.	Section 2	Section 1.8
5	Related Party Transactions – The Fund meets the benchmark. The Fund maintains and complies with a written policy on related party transactions, including the assessment and approval processes for such transactions and arrangements to manage conflicts of interest.	Section 6	Section 9.7
6	Distribution Practices – The Fund meets the benchmark. It is intended that the Fund will pay distributions sourced from its profits from operations.	Section 4	Section 1.6

All statistics and amounts in this Guide are as at 31 October 2020 unless stated otherwise.

CFM may update this Guide from time to time and it is recommended unitholders refer to our website at [www.cromwell.com.au/dpf](http://www.cromwell.com.au/dpf) for these updates. A paper copy of this Guide or any updated information will be given to you on request and without charge.

From time to time, CFM may become aware of information that is material to unitholders but not covered by a disclosure principle. Any such material information will be provided to unitholders in continuous disclosure notices on our website [www.cromwell.com.au/dpf](http://www.cromwell.com.au/dpf).

# 1. Portfolio Diversification

## 1.1 Investment Strategy

The Fund will invest directly, or through unlisted property trusts, in non-residential Australian property with a primary focus on commercial, industrial and retail property.

The Fund may also hold cash where CFM considers it prudent, including for Fund liquidity or while CFM is considering new investment opportunities.

The Fund's Investment Portfolio currently comprises an investment in three unlisted property trusts managed by CFM which own a total of four assets. Over time, the Fund has acquired six direct properties which meet the Fund's investment criteria. This provides unitholders with diversification within the property sector and access to a strong income stream with tax deferred income.

As CFM acquires or sells assets, the Fund's investment portfolio will change. The Fund may also increase or decrease the amounts invested over time in any of the underlying property trusts at any time.

The only significant non-direct property asset of the Fund is cash. As at 31 October 2020, the Fund held cash and cash equivalents of approximately \$24,525,000 after making an adjustment for the \$26,000,000 debt repayment from the sale of the Parafield Retail Complex.

In the Fund's management accounts as at 31 October 2020, the carrying value of the investment properties was \$305,400,000 and the value of investments in unlisted property schemes was \$72,176,000, amounting to a total of \$377,576,000 in property or property related assets.

At 31 October 2020, the Fund had total assets of \$432,667,000 and property investments represented 87.3% of the Fund's total assets.

As at 31 October 2020, the investment portfolio includes direct and indirect interests in the following:

Building	Valuation	Valuation Date	31 October 2020 Ownership	Sector	Market Cap Rate <sup>1</sup>	Occupancy <sup>2</sup>	Valuer
33 Breakfast Creek Road, Newstead, QLD	\$281,000,000	30 June 2020	22.5%	Commercial	6.00%	99.8%	External
117 Brisbane Road, Ipswich, QLD	\$128,500,000	30 June 2020	14.3%	Commercial	6.75%	99.7%	External
Lot 2, 902 Caribou Drive, Direk, SA	\$62,400,000	19 August 2020	15.8%	Industrial	6.50%	100%	External
19 George Street, Dandenong, VIC	\$107,000,000	31 October 2020	15.8%	Commercial	5.25%	97%	External
Bunnings Playford, SA	\$36,500,000	30 September 2020	100%	Retail	5.75%	100%	External
64 Allara Street, ACT	\$17,500,000	30 June 2020	100%	Commercial	6.75%	100%	External

<sup>1</sup> The market capitalisation rate (cap rate) is the capitalisation rate used to value a property, assuming it is fully leased at reasonable and current market rent rates.

<sup>2</sup> Calculated by vacant space over total net lettable area.

## ASIC Benchmarks and Disclosure Principles: Cromwell Direct Property Fund 18 November 2020

433 Boundary Street, Spring Hill, QLD	\$38,400,000	30 June 2020	100%	Commercial	6.00%	100%	External
420 Flinders Street, Townsville, QLD	\$63,500,000	30 September 2020	100%	Commercial	6.50%	100%	External
163-175 O'Riordan Street, Mascot, NSW	\$114,000,000	30 June 2020	100%	Commercial	5.75%	100%	External
11 Farrer Place, Queanbeyan, ACT	\$35,500,000	30 June 2020	100%	Commercial	6.25%	100%	External

COVID-19 continues to have a varying impact on the tenants in the portfolio's properties, with IES at 433 Boundary Street, Spring Hill experiencing the highest level of stress due to their operations in the international education industry. Where required under the Code of Conduct, tenants that qualify for the Job Keeper scheme have been offered rental relief in the form of a 50% abatement and 50% deferral to the same extent their turnover has been impacted.

Relief provided under the Code of Conduct to 30 September 2020 to IES was \$705,490 which is split 50% abatement and 50% deferral. The relief provided (abatement and deferral) to IES is the biggest exposure within the Fund and represents 22% of IES's annual rental expense and 3.2% of the Fund's gross rental income of \$22.3 million.

### 1.2 Lease Expiry Profile

The following chart shows the lease expiry profile for the properties held in the Fund's investment portfolio (Properties) in yearly periods calculated on the basis of the Fund's income.

Lease Expiry Profile by Gross Income as at 31 October 2020:

### 1.3 Vacancy Rate

As at 31 October 2020 the vacancy rate for the portfolio is 0.01%, with all other space subject to a lease. The vacancy rate represents the portion of the Properties which are not subject to a lease or an agreement for lease.

## 1.4 Tenants

The Fund's top five tenants (by percentage of gross income) at 31 October 2020 are:

Tenant	% of Gross Income
Energy Queensland (Townsville)	16.6%
Energex Queensland (Brisbane)	13.9%
International Education Services (IES)	9.9%
Winc Australia	9.6%
State Government of NSW	8.5%

The Fund's Weighted Average Lease Expiry (WALE) is 6.9 years, as calculated in the Fund's most recent financial management accounts.

The Fund's WALE is calculated as follows:

$$\text{WALE} = \frac{\text{Remaining passing income}}{\text{Gross passing income}}$$

WALE is used to measure the overall tenancy risk of a particular property to assess the likelihood of a property being vacated. WALE of a property is measured across all tenants' remaining lease term (in years) and is weighted with the tenants' income against total combined income.

## 2. Valuation Policy

---

CFM has, and complies with, a valuation policy for the Fund.

Where the Fund invests in property trusts that are not managed by CFM, the assets held by those trusts are subject to separate valuation policies administered by the manager of that trust. Investments in property trusts will be valued in accordance with the unit pricing policy of the Fund. Refer to Section 1.10 of the PDS for further detail regarding the Fund's unit pricing policy.

Where practical, property assets owned by the Fund, as well as property assets in trusts managed by CFM, comply with the valuation policy. Among other things, the policy provides that:

- a) the Properties will be independently valued each year (or if applicable after the building is completed);
- b) all valuations are to be carried out by appropriately qualified valuers, independent of CFM, who are registered and have a minimum of five years' relevant experience;
- c) valuers are to be instructed to undertake their valuation in accordance with industry standards and to outline their valuation methodology within the valuation report; and
- d) the same valuers will not undertake more than two consecutive full valuations of the Properties.

CFM believes that using independent valuers (with valuers being required to confirm their independence as part of their valuation report) and ensuring that the valuers used in relation to any one property are rotated in accordance with the valuation policy, will best address any potential conflicts of interest that might arise. However, relevant staff are also aware of CFM's conflict of

---

interest arrangements and are required to report any actual or potential conflicts of interest of which they become aware so that the conflicts can be appropriately managed and/or monitored.

Unitholders can obtain a copy of the valuation policy by calling Cromwell's Investor Services Team on 1300 268 078.

## 3. Fund Borrowing

---

### 3.1 Borrowing Policy

Borrowing by the Fund is known as gearing. Repayment of borrowings ranks ahead of unitholders' interests in the Fund and payment of interest on borrowings must be funded prior to any distributions being made to unitholders. As a result, the borrowing policy and expiry profile of any borrowing facilities of the Fund are important factors to consider.

There are risks involved in investing in a geared Fund as gearing magnifies profits, losses, capital gains and capital losses. See "Borrowing Risk" in Section 4.3.2 of the PDS for further information.

CFM has, and complies with, a borrowing policy for the Fund which outlines the level of gearing and interest cover the Fund expects to maintain. CFM aims to maintain Look-Through Gearing for the Fund as a whole at no more than 50% and will not acquire any direct property or units in any unlisted property trusts that would result in a Look-Through Gearing level above 50%.

### 3.2 Borrowing Facilities

Most property funds use a combination of borrowings and unitholders' funds to acquire properties. Borrowings enhance distributions when the cost of the borrowings is less than the return from the property and increase the potential for capital gain when property values are rising. However, they can also lead to reduced distributions when the cost of borrowings is greater than the return from the property or to a larger capital loss when property values are falling.

In June 2019, the Fund entered a new \$146.5 million 3-year debt facility with an Australian bank (Bank Loan).

The Bank Loan is secured against all the direct assets owned by the Fund at the time the facility was established; 64 Allara Street Canberra, Bunnings Munno Para West, 433 Boundary Street, Spring Hill, Flinders Street, Townsville, O'Riordan Street, Mascot and 11 Farrer Place, Queanbeyan, taking the security pool total value to \$305.4 million collectively. This security means that if drawn down, repayment of the Bank Loan would rank ahead of unitholders' interests in the Fund.

The Bank Loan expiry date is 30 June 2022. As at 31 October 2020 the Bank Loan was drawn to \$83.7 million after allowing for the repayment of debt from the Parafield Retail sale.

As at 31 October 2020, the Bank Loan had an interest rate of 3.18%.

The interest rate including the amortisation of front end establishment fees is 3.36%.

The maturity profile of the Fund's borrowing facility is as follows:

---

The Fund's constitution and the Corporations Act give unitholders certain powers. In particular, the requisite number of unitholders can call a meeting of unitholders to consider resolutions to amend the Fund's constitution, terminate the Fund or remove CFM as responsible entity. The exercise of those powers without the consent of the bank may lead to events of default under the Bank Loan and in certain circumstances will give the bank rights to, amongst other things, call for immediate repayment of the amounts outstanding.

### 3.3 Gearing Ratio

The Gearing Ratio indicates the extent to which the Fund has used borrowings to acquire assets. The Gearing Ratio gives an indication of the potential risks faced by the Fund as a result of its borrowings due to, for example, an increase in interest rates or a decrease in asset values.

The Fund's Gearing Ratio is calculated as follows:

$$\text{Gearing Ratio} = \frac{\text{Total interest bearing liabilities}^3}{\text{Total assets}}$$

CFM intends to limit borrowings to no more than 50% of the total value of all property assets held directly by the Fund. As at 31 October 2020, the gearing ratio for the Fund was 20.8% adjusting for the \$26,000,000 debt repayment. The gearing ratio for 31 October 2020 was calculated using information from the Fund's latest management accounts as at 31 October 2020.

The Fund is also exposed indirectly to gearing because the property trusts in which it invests have used

---

<sup>3</sup> Interest bearing liabilities are detailed under non-current liabilities within the Consolidated Balance Sheet in the Fund's audited Annual Financial Reports. They include the Fund's bank loans, less unamortised loan transaction costs, which have been excluded for the purposes of this calculation.

borrowings to acquire their property. CFM periodically calculates the gearing of the Fund taking into account the Fund's share of assets and liabilities of underlying property trusts. This is known as Look-Through Gearing.

As at 31 October 2020 the Look-Through Gearing Ratio was 26.7% adjusting for the Parafield Retail Complex sale. CFM has based the Look-Through Gearing Ratio on the Fund's latest financial management accounts as at 31 October 2020.

### 3.4 Interest Cover

The Interest Cover Ratio measures the ability of the Fund to meet its interest payments on borrowings from its earnings. The level of interest cover gives an indication of the Fund's financial health. A higher number indicates greater available funds with which to pay interest costs and distributions. It is a key measure of the risks associated with any borrowings which the Fund may have.

Interest cover is calculated as follows:

$$\text{Interest Cover Ratio} = \frac{\text{EBITDA} - \text{unrealised gains} + \text{unrealised losses}}{\text{Interest expense}}$$

EBITDA means earnings before interest, tax, depreciation and amortisation. In the latest financial statements, "EBITDA - unrealised gains + unrealised losses" is represented in the Fund's 30 June 2020 Annual Financial Reports as profit from operations plus interest expense.

CFM intends to fund interest payments from income received by the Fund and does not intend to capitalise any interest payments.

CFM periodically calculates a Look-Through Interest Cover Ratio, taking into account the Fund's share of earnings and interest expense from underlying property trusts.

The Fund's Look-Through Interest Cover Ratio for the period ending 31 October 2020 was 6.9 times.

### 3.5 Loan Covenants

The Bank Loan has various financial covenants which must be complied with. The Fund is in compliance with all covenants.

Under the terms of the Bank Loan, the 'loan to value' ratio must be at or below 50%. The 'loan to value' ratio is the amount of the loan facility divided by the value of the property. As at 31 October 2020, the Fund's loan to value ratio is 27.4%. The portfolio would need to fall in value by 45.4% from its 31 October 2020 valuation for this covenant to be breached.

The interest cover ratio must be no less than 2 times. The interest cover ratio (for the purpose of the Bank Loan covenants) is the Fund's net income divided by the Bank Loan's interest costs and was 7.6 times as at 31 October 2020. Net Trust income would need to fall by 77% or the interest expense would need to increase by 336% for this covenant to be breached.

---

### 3.6 Hedging

Where the Fund borrows to purchase property assets directly, CFM may enter into interest rate hedges in order to provide increased certainty in relation to the Fund's interest expense through fixing the cost of debt for an agreed period. CFM will also take into account hedging in underlying unlisted property trusts when considering whether to hedge any direct borrowings in the future.

CFM maintains and complies with a borrowing policy for the Fund, which incorporates the extent to which the Fund will hedge its interest rate expense.

The Fund has entered into a hedging arrangement (interest rate swap) for 50% of the \$146.5 million Bank Loan effective from 28 June 2019. The interest rate swap has the effect of fixing 50% of the variable market interest rate through until expiry of the Bank Loan in June 2022. The swap was executed at a rate of 1.18% per annum.

CFM may further extend the hedge profile of the Fund in the future where it is considered prudent or cost effective to do so.

## 4. Distribution Practices

---

The Fund is expected to earn income such as rent, distributions and interest from its investments. It is intended that distributions will be paid from cash from operations. A calculation of the profit available for distribution for the year ended 30 June 2020 is set out below.

The following calculation reconciles Fund net profit to the total distribution payable for the 2019 – 2020 financial year, as per the audited Annual Financial Report as at 30 June 2020.

		\$'000
	<b>Profit for the year</b>	<b>11,651</b>
Less	+/- fair value (write-downs)/net gains	
	Investment properties	7,155
	Derivative financial instruments	1,086
	Investments at fair value through profit or loss (net of acquisition costs)	-1,355
	Non-cash property investment income/(expenses)	556
	Amortisation of loan transaction costs	141
<b>Equals</b>	<b>Distributable Earnings</b>	<b>19,234</b>
	<b>Distribution</b>	<b>19,077</b>

CFM considers the Fund's distributions to be sustainable from the Fund's available cash resources for at least 12 months into the future.

It is intended that the Fund will pay distributions sourced from its profits from operations. Over the medium-term, the Fund aims to distribute an amount which is up to 100% of the Fund's expected profit from operations available for distribution (excluding unrealised gains/losses). CFM will estimate profits available for distribution on a regular basis and will pay distributions monthly taking into account that estimate.

Capital gains or losses may also occur on the sale of the Fund's assets. The distribution may be greater

---

in these circumstances. Refer to Section 6 of the PDS for information on the taxation of distributions and taxation of an investment in the Fund generally.

The key risks which may impact distributions are outlined in Section 4 of the PDS.

## 5. Withdrawal Arrangements

---

CFM offers unitholders the opportunity to withdraw all or part of their investment through a Limited Monthly Withdrawal Facility generally limited to 0.5% of the Fund's net asset value per month.

At the end of every five years (the next which will be following end of the second Term in July 2025), CFM intends to offer a full withdrawal opportunity where unitholders can elect to withdraw all of their investment at a specified price.

The Fund invests primarily in unlisted property trusts and direct property assets. These investments are usually illiquid. As a result, the Fund Constitution allows CFM up to 365 days to meet any withdrawal requests (although normally, CFM expects to process accepted withdrawal requests under the Limited Monthly Withdrawal Facility within 15 days after month end, and pay them within two business days after processing, by holding a limited portion of the Fund's assets in cash).

Further information on withdrawals is in Section 7.4 of the PDS.

Further information on the Fund's liquidity risk is in Section 4.3.6 of the PDS.

## 6. Related Party Transactions

---

CFM is the responsible entity for the Fund and may appoint related entities to provide services to the Fund if required. Related party transactions carry a risk that they could be assessed and reviewed less rigorously than transactions with other parties. Where material transactions occur, unitholders should consider the capability and sustainability of those related party arrangements and the potential for conflicts of interest.

CFM has, and complies with, written policies with regard to related party transactions. The policies cover, amongst other things, the assessment and approval process for related party transactions as well as how the risk of any actual or perceived conflict of interest as a result of a related party transaction is managed. All related party transactions require Board approval and the Board will only approve transactions if the transactions are on arm's length terms. Otherwise, unless another exception is available under the Corporations Act 2001 (Cth), the transaction would be subject to approval by the Fund's unitholders.

Compliance with the Related Party and Conflict of Interest Policies is tested at least annually by Cromwell's legal and compliance team. To date, the policies have been complied with by CFM. CFM and related entities may also subscribe for, or acquire, units in the Fund on the same terms as other unitholders.

CFM has appointed some related entities to provide services to the Fund. Like CFM, those related entities are all wholly-owned subsidiaries of Cromwell Corporation Limited. They include Cromwell Property Services Pty Ltd (which provides property, facility management and leasing services), Cromwell Project & Technical Solutions Pty Ltd (which provides project management services to the Fund in relation to the direct property assets), Cromwell Operations Pty Ltd (which provides accounting

---

and other administrative services to the Fund), Cromwell Seven Hills Pty Ltd (which acts as trustee for some of the sub-trusts through which the Fund owns direct property), Cromwell BT Pty Ltd (which provides custodial services to the Fund) and Cromwell Capital Pty Ltd (which provides finance arrangement services to the Fund). Cromwell Property Services Pty Ltd was paid \$595,140, Cromwell Operations Pty Ltd was paid \$46,856 and Cromwell Project & Technical Solutions Pty Ltd was paid \$3,967.16 in fees for the year ending 30 June 2020. Cromwell BT Pty Ltd and Cromwell Capital Pty Ltd did not receive any fees during the year ending 30 June 2020. Cromwell Seven Hills Pty Ltd was entitled to charge fees for acquisitions of direct property during FY2020; however, these fees were received by CFM in accordance with Section 9.7 of the PDS. For further information, please refer to Section 5 of the PDS (regarding fees paid to CFM and its related parties for services provided to the Fund) and Section 9.7 of the PDS (regarding the related party arrangements that relate to the Fund).

Unitholders can obtain copies of the Conflict of Interest and Related Party Policies by calling Cromwell's Investor Services Team on 1300 268 078.
