#### BREAKDOWN OF MANAGEMENT FEES AND COSTS

#### AMOUNT

Base Management Fee	Nil
Annual Administration Cost	0.20% <sup>1</sup>
Indirect Costs	0.30% <sup>2</sup>
<b>Total management fees and costs</b>	<b>0.50%</b>

1. Annual administration costs were capped at 0.20% of the Fund's net asset value for the 12 months to 30 June 2025 plus non recoverable GST expense.
2. Indirect costs of investing through interposed vehicles was 0.30% p.a. of the Fund's net asset value for the 12 months to 30 June 2025. This amount will depend on the Fund's portfolio composition.

#### Performance fee

As at **30 June 2025**, the Fund was at its high water mark being the highest cumulative gross return since inception and no further performance fee will become payable until this high water mark is exceeded. The performance fee is calculated as 20% of the Fund's cumulative gross return in excess of the high water mark.

The historical average performance fee for the five years to 30 June 2025 is 3.38% per annum. In any year, this historical average will differ depending on the performance of the Fund and its underlying investments relative to the net assets of the fund during the relevant financial year.

The historical average performance fee has been calculated on performance fees paid from the Fund as follows:

	2025	2024	2023	2022	2021	AVERAGE
Performance Fees (%)	6.22%	2.68%	1.48%	0.47%	6.02%	3.38%
Performance Fees (\$)	\$779,492	\$229,855	\$74,357	\$10,711	\$65,125	\$231,908

Note that past performance is not a reliable indicator of future performance. It is not possible to forecast the performance of the Fund and in some years there may be negative performance. In addition, all management costs (administration costs) are deducted from the Fund's assets, and are not directly paid by you.

#### Transaction costs

The Fund's total gross transaction costs for the 12 months ending 30 June 2025 were 0.27% of the gross assets of the Fund (e.g. \$135 for every \$50,000 of net assets), made up as follows:

BREAKDOWN OF TRANSACTION COSTS	AMOUNT (% OF NET ASSETS)	HOW AND WHEN PAID
Brokerage	0.27%	Payable when incurred. Payable from fund assets or interposed vehicles' assets
Total	0.27%	As above

Transaction costs were partially recovered by the current buy/sell spread of +/- 0.60% (see 'Buy/sell spread' below). Accordingly, the transaction costs shown in the 'Fees and costs summary' are 0.12% because they are shown net of the amount recovered by the buy/sell spread.

If the buy/sell spread applied is not sufficient to cover the Fund's total gross transaction costs, the balance of the costs will be paid out of the Fund's assets. If the buy/sell spread applied exceeds the Fund's transaction costs, the balance of the buy/sell spread will be retained by the Fund.

Further information on the operation of the buy/sell spread is contained in the AID for the Fund.
